Work
happily!

This is Swop, the most
revolutionary table ever
built!

Addicted to Swop.

Swop Work happily!

01

Interchangeable Panels & LED lighting

Cause you never get up in the same mood! Swap the front panels and you will get a brand-new table in a matter of seconds. It's time to bring colour and light to your consulting room.

A professional treatment table doesn't have to be boring!

Space Ball perimeter foot switch
It sounds like fiction, doesn't it? But it's real! New foot switch system which provides hands-free, all-round height operation. The one and only. Pull the circles around the table and bring your Swop up and down easily!

Get hooked on Naggura circle!

02

Bamboo Sound System

Never thought you could bring music to your treatment table? Choose the Bamboo Sound System with Bluetooth connection and place it into its housing on the table base or simply take it out and put it on your desk.

Since well-being and music are the perfect duo!

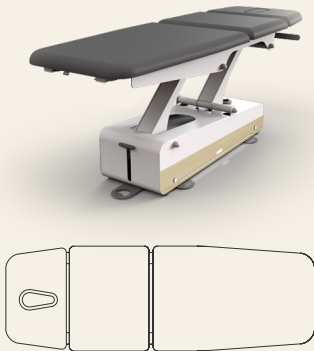

03

Swop 3

Electric 3-section treatment table that can be adjusted to multiple positions providing optimum flexibility and comfort. The table is equipped with 2 engines: one controlling the height of the table with the Space Ball system, and the other which allows setting Trendelenburg and flexion positions. Hidden and retractable wheel system.

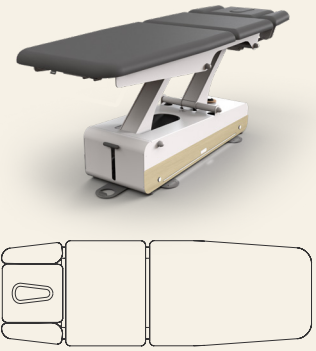

Swop 2L

Electric 2-section therapy table for treatments on patients lying down in supine, prone or semi-sitting positions. The backrest size is ideal for examination and basic treatments. 1 engine controls the table height with the new patented perimeter foot switch, accessible from the 4 sides of the table. Hidden and retractable wheel system.

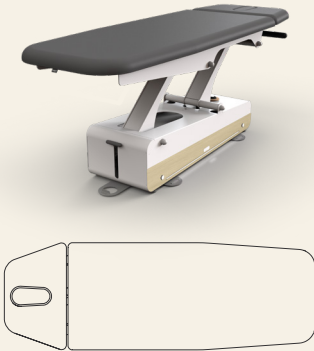

Swop 5

Electric 5-section therapy table equipped with 2 engines: one controlling the height of the table with the Space Ball system, and the other which allows setting Trendelenburg and flexion positions. Equipped with TwinLift: the patient can adjust the armrest to reduce tension and get shoulder girdle relaxed during treatments. Hidden and retractable wheel system.

Swop 2

Electric 2-section therapy table equipped with a short head section adjustable in positive and negative angles for head and neck manipulation techniques. 1 engine controls the table height through the new patented perimeter foot switch, accessible from the 4 sides of the table. Equipped with retractable wheel system.

Remember the name: Swop.

The new generation of tables by Naggura
fully conceived to make you feel happy!

Naggura brings magical ideas into life by
looking at usual things with unusual eyes.
